APCC #5510

**My name is Dolores Vicuna. I earned my Bachelor of Arts Degree in Social Science and Spanish from Pitzer College in 1987. I earned my Master's Degree in Counseling from Le Tourneau in 2017. I have experience working in group homes, substance abuse, anxiety, depression and other co-occurring disorders. I am also interested in working with couples. Marriages undergo various changes from stressors, loss, roles as parents, and/or as each partner ages and changes as individuals. I would like to facilitate the couple's growth and adapt to the changes within the marriage and family relationship.**
